

## RSG TECHNICAL WORK GROUP MEETING

NOVEMBER 13, 2009

**Participants:** Denny Brya, Bernie Fredrick [Steve Kircher's alternate], Jennifer McKay, Dean Branson, Rick Gross, Bob Walker, Ralph Dollhopf, Bob Wagner, Ray Bier, Krissy Russell-Hedstrom (E<sup>2</sup> Inc.), Melinda Holland (E<sup>2</sup> Inc.)

Recommended Requests for assistance under the EPA TASC Contract

1. Identify experts on CKD and other key technical issues.
  - Krissy Russell-Hedstrom will provide short list to WG.
  - WG will give feedback.
  - E2 will make final selection decision.
  
2. Prepare a working resource report covering all existing key technical documents.
  - Prepare an index with a brief description of each key technical document (30-50) with input from the TASC technical expert as to which are most important.
  - WG reviews the index and identifies which documents should be further studied.
  - Executive summaries of key documents are prepared.
  - Key issues and areas of concern are identified for further inquiry by the WG or RSG.
  
3. Technical expert review of modeling
  - Both groundwater and mercury flux modeling

The Technical Work Group also held a conference call on November 6, 2009 to discuss suggested topics for the November 18<sup>th</sup> RSG meeting. The next Technical Work Group meeting is planned for December 10<sup>th</sup>.
